

MAKING THE CASE

READY. TOGETHER. PROVEN.

**PUBLIC SAFETY IS CRITICAL
TO A THRIVING COMMUNITY.
THERE'S NO OPPORTUNITY WITHOUT IT.**

“We have a plan that can start on day one. It involves attracting the highest caliber officers, implementing new policing strategies, and expanding our collaborative partnerships. That’s how we’ll strengthen the safety of our families, our communities, and our city.”

- Jacques Roy

PUBLIC SAFETY IS CRITICAL TO A THRIVING COMMUNITY.

Jacques Roy knows that it all starts with public safety. A safe city leads to a strong economy and attracts good paying jobs. Safe neighborhoods foster a nurturing environment to raise our families. It all goes hand in hand.

That's why Jacques Roy has a detailed plan expanding and reshaping services delivered by the Alexandria Police Department to provide them with the modern tools needed to keep our community safe. Jacques will be ready on day one to tackle the public safety issues facing our city.

JACQUES' COMMITMENT FOR A SAFE ALEXANDRIA:

- PUBLIC SAFETY PLUS PLAN:** Jacques' PS+ Plan will offer innovative support to law enforcement – reimagining how we can better reward those women and men in uniform and create opportunities for growth within the constrained civil service system model. Modern policing demands new thinking and creative solutions.
- LEADING PAY AND BENEFITS:** Policing experts know more officers are needed in cities, and with Alexandria's public safety challenges, we must structure pay and benefits in a way to attract and retain the highest quality officers who could be lured away by other communities, or other job opportunities.
- EXPANSION:** With more officers achieved through the PS+ Plan, leading pay, and new benefits, we can reduce stress and pressure on our officers; we can add force multipliers to relieve them and increase their strength in the field; and as a result, we can focus on the best community strategy for Alexandria not to merely solve but also reduce crime. Jacques will partner effectively and expand our ability to restore proper community policing.
- COMMUNITY POLICING:** Community-style policing is the only certain method for preventing and reducing crime, as well as building trust in our community. By adding more highly trained officers on the beat who are properly resourced, getting to know the people in the communities they patrol, we will lower crime and enrich the lives of those on our force as well as the citizenry.

“

In a snapshot, we will implement our Public Safety Plus Plan to enhance community policing, improve training, attract the highest qualified officers and make Alexandria the safe city we all expect it to be.
